WORK EXPERIENCE

18/04/2022 – CURRENT Jakarta, Indonesia
SENIOR SOFTWARE ENGINEER ASTRO (PT ASTRO TECHNOLOGIES INDONESIA)

As a senior software engineer in order team, I am responsible in migrating legacy codebase of order module from monolith architecture (using Java Spring) into microservices (using Go), developed features such as : GrabMart integration, super delivery order, Astro kitchen CS order creation, Astro balance top up, Order pooling peak time configuration, Order V2, mix cart, etc. I also actively involved in technical design, code review, and scheduled on call to tackle production level issues.

03/01/2022 – 18/04/2022 Jakarta, Indonesia
SENIOR TECHNICAL CONSULTANT VERINT SYSTEMS INC (PT CIBOODLE INDONESIA)

As a senior technical consultant for EMPro cloud services, I was responsible in mainly setting up business configuration and portals as a part of solutions to be delivered for specific client using company's tools and framework.

29/06/2020 – 31/12/2021 Jakarta, Indonesia
SOFTWARE ENGINEER LEMONILO (PT LEMONILO INDONESIA SEHAT)

As a software engineer in marketing and Lemonilo life team, I was responsible in designing, building, and maintains go based microservices related to marketing and Lemonilo life, deliver features that are essential for both teams such as referral program, health discussion forum, gamification, coupon validation rule revamp, etc.

25/06/2018 – 01/04/2020 Jakarta, Indonesia
SOFTWARE ENGINEER AIRY (PT AIRY NEST INDONESIA)

As a Full Stack Software Engineer on Core Team (Marketing Technology) until the company terminated its operation. I mainly focused on design, development and maintaining features, tools, and integrations using Java (Dropwizard framework) and Go to support the marketing team. I was also responsible in providing technical support for the marketing team in daily operations. I have handled multiple project such as : Transaction Attribution Report, Airy Click ID, Signature Promotion, Flash Sale, Airy Click ID Ads Data Migration, Customer Segmentation, etc.

01/08/2016 – 22/06/2018
SOFTWARE ENGINEER TOKOPEDIA (PT TOKOPEDIA)

As a Full Stack Software Engineer at Transaction Tribe (Order, Cart, and Checkout), I mainly worked on order service migration from monolith (using Perl) into microservices (using Go) and development of some order and cart features such as new checkout flow, and autodebit commission from official store.
